### **DETAILED ACTION**

This Office action is in response to the communication filed 12-22-04.

Claims 1-20-33 are pending in the instant application.

Pursuant to 37 C.F.R. 1.142(a), an examiner's action on the merits of the amendments and arguments filed by applicant on 12-22-04, insofar as they pertain to the elected invention, is hereby deferred until an election has been made (See MPEP 810.02 and 811).

### ***Election/Restrictions***

Pursuant to 35 U.S.C. 121 and 37 C.F.R. 1.141, the different oligonucleotides listed in claims 20, 21, 22 and 23 are subject to restriction (*i.e.* the different oligonucleotide sequences comprising either SEQ ID Nos. 65 + 66, 61 + 62 or 63 + 64, and further including one sequence selected from i – xvii and listed in claim 23 are different and distinct sequences). In the instant case, one independent and distinct nucleotide sequence will be examined in a single application without restriction. Those sequences which are patentably indistinct from the sequence or polynucleotide molecule selected by the applicant will also be examined.

Claims 20-23 specifically embrace different polynucleotide molecules. Each of these oligonucleotides is considered to be structurally independent, because each is represented by a unique nucleotide sequence. Furthermore, a search of all the nucleotide sequences claimed presents an undue burden on the Patent and Trademark

Art Unit: 1635

Office to search and examine. In view of the foregoing, applicants are required to elect up to **one** (1) polynucleotide from claims 20-23.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
